**Head      Format flexible and cost efficient wrapping**

Subhead    KÖRA-PACKMAT presents the new SonicSeal F - a format flexible wrapping machine for different products from CR80 format up to DIN A5.

**VILLINGENDORF, Germany, 14 March 2007** – KÖRA-PACKMAT, a German company specialising in the manufacture of wrapping machines for flat products, will be exhibiting at CTST 2007. The highlight is the market launch of the new SonicSeal F, a machine for format flexible wrapping and ultrasonic-sealing of prepaid cards, CDs, CD cards and software kits up to A5-size.

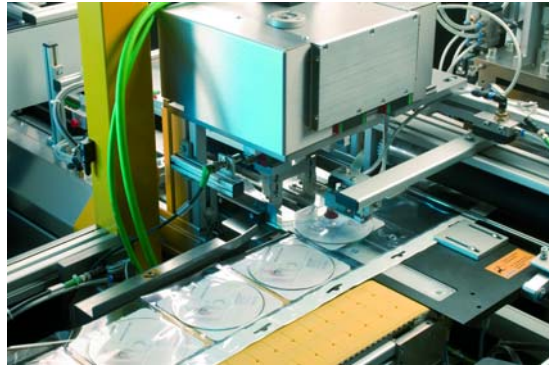

SonicSeal F is capable of becoming extremely important for the Asian card market considering the growing demand for prepaid phone cards in the "lottery ticket" format (multiple scratch cards on one sheet). Up to now the production and packaging of these special prepaid cards has been done manually. Therefore packaging quality has been of poor quality and considered as non-secure.

Card manufacturers can gain significant benefits from SonicSeal F and the format flexible ultrasonic-sealing of the wrapping; ultrasonic seals provide tamper-evidence, intricate patterns on the seals can be used to customize the packs and increase protection against counterfeiting, stiffness of the seals gives extra protection to the products in a pack. Material costs can be kept low as the wrapping is formed from single wound film spooled directly off a reel.

KÖRA-PACKMAT is a privately owned company, created in 1997 through the merger of PACKMAT, a special-machine building company founded in 1966, and KÖRA, a packaging machine manufacturer founded in 1980. The merged company built on its combined expertise and focussed on machines for feeding, collating and film wrapping of flat paper and plastic products.

Today, more than 100 highly qualified employees develop and produce film wrapping machines and feeding systems. KÖRA-PACKMAT's machines produce packs of high quality and integrity, the machines are renowned for their durability and reliability. A large proportion of the company's production is exported worldwide.

KÖRA-PACKMAT founded subsidiaries in Singapore and China to support its strong customer base in Asia. KÖRA-PACKMAT is represented on all continents by sales partners in 48 countries.
